

I do not want any changes made to weaken the Wisconsin Do-Not-Call restrictions. I'd prefer that a telemarketer is charged to call my phone number (like postage). I'd prefer that they pay me \$2.99/minute to call me (like 1-900's). That'll make them discrete in who they call and bother. Do that and thousands of people will drop their Do-No-Call listing and have the telemarketers pay their phone bills.
